

Ultra Reflections

ZING ULTRA REFLECTIONS FLOOR FINISH

Zing ULTRA REFLECTIONS is a floor finish that was designed to get better with age. When first applied, the floor finish produces a low sheen. As time goes on, through burnishing this product can really shine!

Frequently Asked Questions

- Q. Why should I use Zing Ultra Reflections Floor Finish?
- A. If you burnish regularly, then Ultra Reflections is for you. As you burnish the finish gets harder making the finish more durable and the gloss gets better.
- Q. What is the best pad to scrub Ultra Reflections with?
- A. *Medium Grade Hair Pads* work great for both scrubbing and burnishing. We have been using the Blue Blend Burnish pad by Americo for scrubbing and burnishing. You want to use a pad that can be used for scrubbing and burnishing. Custodians use too many types of pads.
- Q. What are the chemical solids?
- A. 24%
- Q. What are chemical solids?
- A. Solids is what is left behind after the water has evaporated. 24% solids means 76% is water. (See Zing Form No. 122 Chemical Solids)

- Q. I'm completely stripping my floor how many coats should I apply of Ultra Reflections?
- A. If you starting with a stripped floor then you want at least 5-7 coats. We recommend that you apply no more than 4 during any application so the product has some time to dry.
- Q. I'm installing Ultra Reflections on my existing finish. How many coats should I apply?
- A. It is good to know how many coats you have on the floor before starting. If you don't know how many coats are on the floor then follow *Zing Floor Care Technique No. 6 'Razor Blade Test'* youtube video and learn how to tell how many coats are present. As long as 4 coats are present then I would add 2 coats. Remember we want to have 5-7 coats.
- Q. Using Ultra Reflections on my floor is it easy to fix?
- A. Following a good maintenance program high traffic areas are the only areas that should need fixing. Ultra Reflections can easily be fixed by using Zing KLEEN-UP for 'Surface Repairing' taking dirt out of the top layers of Ultra Reflections or Zing Floor Prep that will will remove deep ground in dirt. *See Zing* youtube videos - How to Restore a Floor without Stripping and How to Restore a Floor Spray Cleaning with KLEEN-UP.
- Q. Is Ultra Reflections easy to remove from my floor?
- A. Yes, any floor stripper used properly should work.
