

All About:

Ultra Reflections Floor Finish

Zing Ultra Reflections Floor Finish is a unique **GREEN** Certified formulation that meets environmental standards for safety in application for applying finish to floors. Produces an outstanding high gloss after burnishing. Develops a harder gloss film over time that resists soil penetration. For use on all hard floor surfaces.

Directions

Note: Be sure floor has been prepared properly before applying finish. Clean floor with **Zing Kleen-Up** and burnish prior to applying **Ultra Reflections Floor Finish**. Use a microfiber flat mop to apply finish. Allow finish 10-15 minutes to dry before applying another coat. Number of coats depends on desired look. Wait 24 hours before burnishing.

For best results floor finish will become harder and the shine will increase through burnishing regularly.

Never burnish your floor dry or you will powder the finish adding to poor indoor air quality and power getting on shelving, chairs, merchandise, etc.

See Zing CPC Cleaning & Polishing Compound the best product for burnishing.

Benefits

- Zinc free
- Transparent
